

The Scoliosis Foundation was founded in 2009 to serve the scoliosis community through education and research. The foundation partners with leading medical facilities to provide patient advocacy programs and clinical research for scoliosis patients and their families.

The Scoliosis Foundation, a 501 (c) (3) non-profit organization, is dedicated to its mission of providing charitable services and research funding for the prevention, treatment and education of scoliosis in young children.

Scoliotic curves of 10° or less affect 3-5 out of every 1,000 people. The prevalence of curves less than 20° is about equal in males and females. 2% of women and 0.5% of men are affected by scoliosis. It is most common during late childhood, particularly in girls. This condition affects approximately 7 million people in the United States.

It is the mission of the foundation to fight this condition in children 'One Degree at a Time'.

For more information on scoliosis or how to get involved in the cause, please visit www.thescoliosisfoundation.org or contact the foundation at (513) 213-0998.
